CAREER SUMMARY

Junior Full Stack Developer with 6 months of professional experience at Bluon Tech, delivering backend features using Laravel and MySQL, and hands-on full-stack project experience with React.js, Node.js, Express.js, and MongoDB. Proven ability to build secure REST APIs with JWT and OAuth 2.0 authentication, design scalable database schemas, and ship responsive UI. Seeking a junior developer role to contribute to production-grade web applications.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3

Backend: Node.js, Express.js, Laravel (PHP), REST APIs, Java (basics)

Database: MongoDB (Mongoose), MySQL

Auth: JWT, bcrypt, Google OAuth 2.0

Tools: Git, GitHub, Postman

EXPERIENCE

Jr. Software Developer | Bluon Tech

February 2025 – August 2025

- Built backend features for Udhaya App (Real Estate, Motors & Loan platform) using Laravel and MySQL.
- Implemented JWT authentication, OTP verification, and email communication to enhance app security.
- Designed normalised database schemas and developed 10+ REST APIs for listings, loans, and ads.
- Built Laravel Blade admin panels for managing users, listings, loans, and advertisements.
- Improved reliability and admin usability of E-Vahan Sevai App backend.
- Redesigned and delivered 5+ responsive websites including the official DMDK political party site.

PROJECTS

CookLease – Rental Management Platform — React.js · Node.js · Express.js · MongoDB Atlas

- Built a full-stack rental management app with RESTful APIs for user management, product rentals, orders, and returns.
- Implemented secure authentication using JWT (session-based), Google OAuth 2.0, and bcrypt password hashing.
- Developed an interactive admin dashboard with React Recharts to visualise orders, payments, and revenue analytics.

Expenzo – Expense Tracker App — Node.js · Express.js · MongoDB

- Built a secure backend with JWT cookie authentication, bcrypt passwords, and RESTful APIs for income/expense CRUD with pagination, filters, and date queries.
- Designed a scalable MongoDB schema using reference data models and aggregation-based APIs powering real-time dashboards showing Net Balance, Total Income, and Total Expenses.

EDUCATION

B.E (Computer Science) | Sengunthar Engineering College, Tiruchengode | 2021–2025 | CGPA: 8.3

HSE | Everest Mariappa Nadar Hr. Sec. School, Kovilpatti | 2020–2021 | 81%

SSLC | Everest Mariappa Nadar Hr. Sec. School, Kovilpatti | 2018–2019 | 73%
